September 12, 1983

Gerry Sotolongo
EPA Project Director

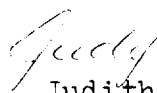

Dear Gerry,

The members of L.I.F.E. would like to take this time to express our deep appreciation to you for attending our first meeting on Sept. 8, 1983. We are very satisfied with the response that came from the people in attendance. As I am sure you well know, this was a new experience for all of us. I'm sure as time goes by we'll get it down pat.

We hope you were pleased with the manner and format of the evening. we realize that it is no easy task for any official to take random questions from any audience and we were pleased with your response to town residents.

We have been researching new information and you may be hearing from us in the near future regarding this new material. Rather than waste anyone person's time we are checking into the facts before we submit any new testimony. Our sincere best wishes to you and your family and many good wishes for happiness in your new home.

Sincerely,

Judith A. Tonnessen
Spokesperson for L.I.F.E.
